

## Training Cell- SRMU

Keeping in mind the ever changing competitive world, our students need to constantly update their skills and attitude in the areas of communication, emotional intelligence, passion, commitment and positive thinking. This is where the management development programmes help students. Training cell prepares students for a smooth journey from campus to corporate.

The focus area of Training Cell is on soft skills, attitude training, communication, time management and importance of timely completion of the assigned tasks. In addition, Training cell also trains students in work life balance, group discussion, personal interviews, resume building and public speaking.

The effort is to enable students to think beyond their limited job responsibilities and innovate for out of the box solutions to various problems in work place. The Training programmes delivered to students during their pre-final and final year education, is thoughtfully designed to create passion, commitment and positive thinking.

Training cell functions under the guidance and supervision of Dy. Director - Training and derives the vision directly from the University management.
