**International Conference
On
Modern Trends in Civil Engineering
(Towards Sustainable Development Goals)
ICMTCE - 2019
01-02 March, 2019**

Organized By

**Faculty of Civil Engineering
Shri Ramswaroop Memorial University
Lucknow Deva Road Uttar Pradesh, India**

In Association With

**National Institute of Hydrology
Roorkee Uttarakhand, India**

BACKGROUND

In today's world the sustainable development is the need of the hour. As scientist and engineers, we have to ensure the progressive development but without stressing out our natural resources. The aim of this conference is to provide the platform to various researchers and field engineers working in the various fields of civil engineering viz. infrastructure, town planning, water and sanitation, climate change, transportation, environment, etc. Here they could exchange their recent findings and share the knowledge to achieve sustainable development goals.

ABOUT SRMU

Shri Ramswaroop Memorial University (SRMU) is one of the leading universities in State of Uttar Pradesh and it is situated on the way to shrine of Deva Sharif. The university is a confluence of academic, cultural and intellectual resources. It has produced many young talents excelling in various fields of Engineering, Science, Management, Law, Journalism etc. **Research papers are invited under the following themes:**

Structure and Seismic analysis:

- Prestressed Concrete, Retrofitting method
- Structural dynamics and control and Seismic Analysis
- Bridges, Green buildings, floating structures
- Finite Element Methods and any other relevant topic

Geotechnical Engineering:

- Scour at Bridges, Prediction of Meander Migration
- Intelligent Compaction, CMP PERT
- Advances in Geotechnical Techniques and any other relevant topic

Transportation & Building Material and Construction:

- Planning & Modelling, Traffic Management, ITS
- Geometric Design, Asphaltic & Concrete Pavements
- Survey, Smart city, GIS and Remote Sensing,
- Recycled Materials and Construction Materials and any other relevant topic, walkable solar panel pathway.

Water Resources and Environment:

- Water Resource Management
- Water and Air Pollution
- Bioremediation, Renewable energy
- Environment Degradation and mitigation
- Hydrology and hydrogeology
- Solid waste Management
- Modelling: Groundwater, Surface water, water quality
- Rainwater harvesting and artificial recharging of groundwater
- Latest trends in Public Health and sanitation
- Reuse and Recycle of wastewater
- Disaster Management and any other relevant topic

Call for Papers

All the authors are requested to contribute through submission of the abstract and research papers that addresses the above themes and topic of the conference. Poster presentation are also welcomed. Best oral and poster presentation will be awarded.
