“Epoxy and Curing agents – A versatile family of synthetics”

International webinar on “Epoxy and Curing agents – A versatile family of synthetics” was organized by Faculty of Chemical Sciences, Institute of Natural Sciences and Humanities, Shri Ramswaroop Memorial University on 24th June 2020. The webinar was enriched by our two eminent speakers from Aditya Birla Group (Europe) GmbH and CTP advanced materials GmbH, Stahlstrasse 64, 65428 Ruesselsheim, Germany.

Mr. Pramod Kumar
Managing Director
Aditya Birla Chemicals
(Europe) GmbH & CTP

Mr. Daniel Maisack,
Head of R & D
CTP Advanced

The event was attended by number of participants including Faculty members, Research scholars, and students from recognized Universities and institutes.

The theme of webinar was solely based upon the synthesis, properties and huge applications of epoxy resins. It had provided students and young research scholars to build their future in this billion dollar industry that demonstrate fairly the practical applications and importance of studying and carrying out research in the field of chemical sciences.

Participants have given their valuable feedbacks about the lectures given by our enthusiastic and experienced speakers.

All the participants were given e-certificate.
